

Invitation to SSF member event in Zurich: Launch of SSF education tools for financial professionals - “Sustainable investments in a changing world”

Date: Friday, 7 September 2018, 12.00 – 14.00 (including lunch)
Location: Vontobel, Gotthardstr. 43, 8002 Zürich

Capacity building in sustainable finance is one of the key drivers to advance investments in more sustainable products. Therefore, the SSF education workgroup has created two education tools on sustainable investments (a slide deck as well as an online e-learning tool) tailored specifically to the needs of finance professionals. Case studies as well as sustainability profiling of clients offer an interactive learning experience of practical value.

At this event, we will present the SSF education tools exclusively to our members. In a subsequent discussion, we wish to gather your feedback on the tool and jointly identify the best way to disseminate it amongst our members and network partners.

The education tools can be accessed in the [members section of the SSF website](#).
